Benefits of Going **Mobile**

- **Go Paperless**- Reduce Paper & Printing Costs
- **Increase Revenue**- By reducing drive time to pickup & deliver paper work orders
- **Avoid Mistakes**- real-time validation at source of entry by person closest to job
- **No more lost or damaged** paper work orders
- **Eliminate challenges** with trying to decipher hand writing from field personnel
- **Reduction in data entry** work from an office clerk
- **Real-time access** to completed work order information, respond to customers quickly

A smartphone displaying the Seltzer Water Services mobile app interface. The screen shows the 'Create New Work Order' screen, specifically 'STEP #2: WO INFORMATION'. The interface includes a progress bar with three steps: 1. Location, 2. Information (highlighted), and 3. Review. Below the progress bar, there are several form fields: 'Problem' (dropdown menu with 'Broken Water Meter (09)' selected), 'Assigned To' (dropdown menu with 'Mike Thornhill (20)' selected), 'Priority' (dropdown menu with 'Normal Priority' selected), and 'Scheduled Date' (calendar icon with '04-11-2019' selected). At the bottom, there is a 'Comments' text area with the text 'Leak on left side of property' and two orange buttons: '<< PREVIOUS STEP' and 'NEXT STEP >>'. The Seltzer Water Services logo is visible at the top left of the app screen.
