# Benefits of Going **Mobile**

- **Go Paperless**- Reduce Paper & Printing Costs
- **Increase Revenue**- By reducing drive time to pickup & deliver paper work orders
- **Avoid Mistakes**- real-time validation at source of entry by person closest to job
- **No more lost or damaged** paper work orders
- **Eliminate challenges** with trying to decipher hand writing from field personnel
- **Reduction in data entry** work from an office clerk
- **Real-time access** to completed work order information, respond to customers quickly

A smartphone displaying the Seltzer Water Services mobile app. The screen shows the 'Create New Work Order' process, specifically 'STEP #2: WO INFORMATION'. The interface includes a progress bar with three steps: 1. Location, 2. Information (highlighted), and 3. Review. Below the progress bar, there are several form fields: 'Problem' (Broken Water Meter (09)), 'Assigned To' (Mike Thornhill (20)), 'Priority' (Normal Priority), and 'Scheduled Date' (04-11-2019). A 'Comments' field contains the text 'Leak on left side of property'. At the bottom, there are two orange buttons: '< PREVIOUS STEP' and 'NEXT STEP >'. The Seltzer Water Services logo and the AVR logo are also visible on the screen.
